

Your new vague rulings on broadcast causing Howard Stern to be pulled off the air are ridiculous.

If you're going to sensor what I listen to like this, then you need to take a close look at the news broadcasts showing gays and lesbians kissing and getting married.

Well, I DO find THAT a heck of a lot more offensive and difficult to explain to my children than whatever may be broadcasted over a show I control weather my children listen to or not. However, I can't control as easily what images my children see while watching a news broadcast, just as much as some people found in Jackson during SuperBowl Half Time.

Of course, if you're going to pull Howard's plug or be at least the reason he's suspended, then I'll tell you as a Catholic and a Christian, that I find it much more offensive to hear Jews think they've earned all the pity in the world for the Hollocaust. You'll need to sensor this for offensive material to Christians.

Noone seems to care about what all the Christians went through as they were persecuted, crucified and fed to lions. Noone seems to care about all the Christians and hoards of non-Jews who died alongside Jews in Concentration camps during the Nazi days, yet broadcasters freely transmit outrageous claims against Mel Gibson and about his newest film, The Passion of the Christ coming from non-believers and Jews alike.

Mr. Powel, Mr. Bush and the rest of this country needs to get off their big horse and stop this crusade, unless ALL gay and lesbian shows are censored, ALL news media of every sort is censored as to the showing of immoral relationships and anti-Christian sentiment around the nation.

Of course, once you clean these mediums, then you'll need to revise your freedom of expression and freedom of press laws, so that NO such immoral and offensively anti-Christian material is ever published in any medium whatsoever.

Now, if you're not going to follow THROUGH....START FINDING WAYS INSTEAD TO RID THIS COUNTRY OF TERRORISM SO THAT OUR ECONOMY CAN FINALLY GROW, PUT EFFORTS IN FINDING WAYS TO COLLABORATE ON HOW TO CREATE POSITIVE BROADCASTING, RATHER THAN CHASTISING WITHOUT RECOURSE, CLEAR RULINGS, OR ALTERNATIVE POSITIVE INCENTIVES TO HELP CHANGE BEHAVIOUR.
